

RODIM Dispenser for Paint Strainers

Published: 09.08.2017

Latest update: 09.08.2017

MIXING & PAINTING

Specifications

The wall dispenser ensures clean and dust-free storage, and contamination-free dispensing of the strainers by pulling the specially designed tab.

Remarks

The wall dispenser ensures “no touch” contamination-free storage and dispensing of the strainers. Dispenses one strainer at a time. The dispenser is closed to protect the strainer from dust and other contaminants. The zip-open plastic bags of strainers (125 strainers/bag) load quickly and easily into the patented strainer dispenser, eliminating touching of mesh. User-friendly and made of rugged, engineering-grade plastic.
