RODIM Mixing Cups

MIXING & PAINTING

Packing:

300 pieces in a box. 50 pieces in a plastic bag.

Specifications:

The correct color can only be achieved by the complete mix of the different pigments inside the mixing cup. Disposable plastic Mixing Cups accelerate your process by saving cleaning time!

The mixing ratios are optimized for use with all types of BASF Coatings paints. Mixing ratios are printed with high accuracy on the mixing cups. Absolute silicon free. The clear plastic is not Poisonous. Designed for Single Use. Sealed per 50 pieces to prevent dust contamination. Supplementation of dilution or water read out from 5 till 30%. Maximum standard deviation of single thinner and hardener up till max 10%. Partition in millimeters.
