Technical Data Sheet

RODIM Mixing Cups & Lids

Application

- Ideal for mixing and storing all types of paints and varnishes.
- Designed for single use to avoid cleanup and reduce downtime.
- Lids seal tightly to prevent spills, while remaining easy to remove when needed.
- Fully compatible with the RODIM MPS-2 for seamless integration.

Properties

Cups made with minimum 45% recycled polypropylene.

Lids made with 100% recycled polypropylene.

Performance

- Improved quality makes it easy to use.
- Effortless Pouring: Smooth design ensures easy and controlled paint flow.
- Easy to stack, making storage simple and efficient.
- Mixing ratios are clearly printed and readable from inside.
- Versatile Mixing Options: Includes 13 ratios:
1:1+20%, 1:1+30%, 2:1+10%, 2:1+30%, 3:1:1, 4:1:1, 5:1:1, 5:3:1, 6:1:1, 7:1:1,
100:60, 100:80, and universal.
- Environmentally friendly.

Important:

For the most precise results, we strongly recommend using a scale. It eliminates errors from manual estimation and helps avoid extra time and costs.

Packaging

Mixing Cups: 8 pieces = 8 bags = 200 cups = 1 box

Mixing Lids: 16 pieces = 16 bags = 400 lids = 1 box
